

Proyecto Bique

Vacamonte, Republic of Panama

Proyecto Bique is a privately held property of approximately 600 hectares located near the southern entrance of the Panama Canal. The property surrounds the Port of Vacamonte and includes stunning views of the ocean and nearby islands.

McKinney Internacional provided preliminary planning for a mixed-use development consisting of residential, industrial and commercial properties. The scope of work included site analysis, feasibility, topographic surveying, preliminary geotechnical investigation, and parcel planning.
